

Plasticker.com - online marketplace for raw materials, machines and products Profile Description

The interactive marketplace for the plastics industry offers regularly over 2,000 offers and requests in the raw material exchange (granulate, compounds, regrind, flakes, recyclate) as well as over 800 in the machinery exchange (injection moulding machines, extrusion lines, granulation equipment, ancillary equipment).

The offer from plasticker.com is rounded off by news from the market and the industry, raw materials prices and market reports, job market and trade agencies.
